Findings and evidence

Page 2

Use this page to summarise the most important observations from the evidence review.
Keep each point clear, specific and tied to what a buyer or AI system can actually see.

Headline findings

- 1 [Clear service identity is visible, but key treatment/service details need stronger clarity.]
- 2 [Trust signals are present, but verification and proof could be easier to find.]
- 3 [Comparisons are possible, but differentiators are not always explicit.]
- 4 [Next steps exist, but the route to act could be more direct and obvious.]
- 5 [There are opportunities to improve how AI summaries reflect this business.]

Key buyer questions tested

- [Who offers ...?]
- [How does this provider compare ...?]
- [Can I verify credentials, location and contact details easily?]
- [How clear is the next step to book, enquire or buy?]
